Subpart E—Cost-of-Living Increases

§ 225.40 General.

A cost-of-living increase is an automatic increase in a PIA provided under section 215(i) of the Social Security Act. The Social Security Administration determines the percentage amount of any cost-of-living increase paid by the Board.

§ 225.41 How a cost-of-living increase is determined and applied.

Depending on the condition of the social security trust funds, the increase can be based on rises in either the consumer price index as published by the Department of Labor or the average wage index which is the average of the annual total wages used for computing a PIA. The increase is payable when the appropriate index for the third calendar quarter of one year shows an increase of at least three percent over the same index for the third calendar quarter of the previous year (or the last calendar quarter within which a legislated general benefit increase became effective). No increase is payable for the calendar year that immediately follows a year in which a legislated general benefit increase was effective. The increase amount is determined by multiplying the PIA by the percentage increase in the appropriate quarter of a previous year.

§ 225.42 Notice of the percentage amount of a cost-of-living increase.

The percentage amount of the cost-of-living increase is published in the FEDERAL REGISTER by the Secretary of Health and Human Services within 45 days of the end of the measuring period used in finding the increase.

§ 225.43 PIA's subject to cost-of-living increases.

The Retirement Tier I, Overall Minimum, Survivor Tier I, Employee RIB and RLS PIA's are adjusted for cost-of-living increases. The remaining PIA's described in subparts B and C of this part are frozen at the amounts determined under the Social Security Act as in effect on December 31, 1974.

§ 225.44 When a cost-of-living increase is payable.

A cost-of-living increase is payable beginning with December of the year for which the increase is due. The increase is paid in the January payment.

Subpart F—Recomputing PIA's

§ 225.50 General.

After an annuitant begins receiving an annuity, the PIA's may be recomputed as explained in § 225.52. Most recomputations result in an increase in the PIA. The Board pays a recomputed PIA when an increase of at least $1 results. Most recomputations are processed automatically and require no action by the annuitant.

§ 225.51 PIA's that are subject to recomputation.

The following PIA's are subject to recomputation—

(a) Tier I PIA;

(b) Survivor Tier I PIA;

(c) Overall Minimum PIA;

(d) Employee RIB PIA; and

(e) Residual Lump-Sum PIA.

§ 225.52 Reasons for recomputing a PIA.

There are three major reasons for recomputing a PIA:

(a) Recomputation to consider additional earnings.

(b) Recomputation when an employee is eligible for periodic pension payments based on other than railroad or social security earnings.

(c) Recomputation to use a new or different PIA formula, as provided in section 215(f) of the Social Security Act.

§ 225.53 Recomputation to consider additional earnings.

(a) *Additional earnings that cause a recomputation*—(1) *Earnings not included in earlier computation or recomputation.* The most common reason for recomputing a PIA is to include earnings that were not used previously, as described in paragraphs (a)(2) through (a)(4) of this section. The inclusion of these earnings may result in a revised Average Monthly Earnings or revised Average Indexed Monthly Earnings
